ACPET Foundation Skills Series for RTOs - Foundation Skills scenarios to success ... the Master Class

Advance your Career

RTO staff come from a wide range of industry backgrounds with varying levels of foundation skills knowledge and skills. Under the National Foundation Skills Strategy for Adults, the Australian Government is supporting the enhanced delivery of these skills across the national training sector.

The Framework

The Foundation Skills Frameworks provide common tools for VET practitioners to assess learners' language, literacy and numeracy as well as employability skills. The Frameworks are:

- the Australian Core Skills Framework (ACSF)
- the Core Skills for Work Development Framework (CSfW).

ACPET's Foundation Skills Series

The series provides a 'step up' approach which builds from introductory sessions through to a master class: join as many sessions as you like! Participants from all private RTOs, TAFEs and community colleges are welcome to register.

FOUNDATION SKILLS PEER

QS AND AS: FOUNDATION SKILLS SCENARIOS TO SUCCESS THE MASTER CLASS

- Leading my RTO's Foundation Skills Framework Agenda
- Advancing the application of Foundation Skills
- An introduction to the CSfW Developmental Framework
- An introduction to the ACSF or a refresher on the ACSF in context

The series runs from October 2014 through to June 2016.

Booking your place ...

If this master class webinar is fully booked, ACPET will offer you a recording.

More information ...

or to register for a session, please contact ACPET on 03) 9412 5900 or visit us at:

www.acpet.edu.au

This is the finale of the ACPET Foundation Skills Series for RTOs.

If you have missed ACPET's introductory and advanced sessions, you may request a home tuition recording, in preparation for your participation in this session.

You will be recognised as a Foundation Skills Peer on completion of this ACPET professional development series.

ACPET
AUSTRALIAN COUNCIL FOR PRIVATE EDUCATION AND TRAINING

On behalf of the Australian Government, ACPET is offering fully subsidised professional development opportunities to all RTO staff to enhance your understanding and application of foundation skills within your day to day role.
