MEDIA RELEASE

26 November 2015

Launch of the ABA Training Guarantee

The Australian Business Academy welcomes recent debate regarding quality vocational education and the role of private institutions in the education sector.

A competitive and vibrant vocational sector provides the best solution to developing employment and further education pathways for students.

To demonstrate the Australian Business Academy’s commitment to achieving outstanding educational outcomes for students and confidence in the quality of our training, we are pleased to announce an innovative initiative, the ABA Training Guarantee.

The ABA Training Guarantee will offer an additional six months of training to students that have not sufficiently demonstrated their competence to the level required to complete their qualification. The additional six months of training will be at no cost to the student and will not impose any additional funding requirements upon the government.

The Australian Business Academy understands that for a variety of reasons, students are sometimes not able to commit sufficiently to complete their qualification within a standard teaching period. We believe that offering the ABA Training Guarantee will provide an opportunity for capable students to obtain additional training that will allow them to achieve their goals.

Students that elect to take advantage of the ABA Training Guarantee will still need to meet the same standards of assessment to receive their qualification, but will have access to additional time and support.

The ABA Training Guarantee will be available to eLearning and OnCampus students, commencing immediately.

Australian Business Academy was established in Canberra in 1996 and is a registered training organisation (RTO), VET FEE-HELP provider and successfully meets high standards established by a range of government bodies.

ABA’s excellence in training and delivery has been regularly recognised by industry and government, most recently as a Finalist (NSW) in the 2015 Australian Training Awards and winner of the Small Registered Training Organisation of the Year (ACT) in 2014.
