

ACPET Foundation Skills Series for RTOs – Advancing the ACSF and CSfW and Leading my RTO's Foundation Skills Agenda

Advance your Career

RTO staff come from a wide range of industry backgrounds with varying levels of foundation skills knowledge and skills. Under the National Foundation Skills Strategy for Adults, the Australian Government is supporting the enhanced delivery of these skills across the national training sector.

The Framework

The Foundation Skills Frameworks provide common tools for VET practitioners to assess learners' language, literacy and numeracy as well as employability skills. The Frameworks are:

- the Australian Core Skills Framework (ACSF)
- the Core Skills for Work Developmental Framework (CSfW).

If you have completed an ACSF or CSfW workshop in the past, build on your knowledge and skills by participating in this advanced workshop.

In addition, participants will enhance their adult learning and change management techniques, to champion the integration of foundation skills across their RTO and/or place(s) of work.

ACPET's Foundation Skills Series

The series provides a 'step up' approach which builds from introductory sessions through to a master class: join as many sessions as you like! Participants from all private RTOs, TAFEs and community colleges are welcome to register. You will be recognised as a **Foundation Skills Peer** on completion of this ACPET professional development series.

FOUNDATION SKILLS PEER

Qs and As: Foundation Skills scenarios to success

LEADING MY RTO'S FOUNDATION SKILLS FRAMEWORK AGENDA

ADVANCING THE APPLICATION OF FOUNDATION SKILLS

An introduction to the CSfW Developmental Framework

An introduction to the ACSF or a refresher on the ACSF

The series runs from October 2014 through to June 2016.

Where it suits you ...

Join one or both of these sessions as part of the complete ACPET Foundation Skills Series for RTOs. If you have missed ACPET's introductory sessions,

you may request a home tuition recording, in preparation for your participation in these sessions.

More information ...

or to register for a session, please contact ACPET on (03) 9412 5900 or visit us at: www.acpet.edu.au
